

STANDARD FIELD DESKS

SKYDYNE

Features & Benefits

Skydyne's Standard Field Desks offer military units a lighter tabletop version of the original military Field Desk. These "new and improved" Field Desks are equipped with easily-deployable and adjustable legs, which allow each table to be set up quickly and stand evenly on rugged terrains. Each Standard Field Desk includes lightweight and removable drawer boxes.

Construction

Constructed with a focus on strength and lightweight portability, the Standard Field Desks feature formed and welded aluminum bodies, reinforced and extruded aluminum frames. The desk legs are a combination of extruded and formed aluminum with steel reinforcement, ensuring durability.

Dimensions

When stowed, both versions measure 17.75"L x 26"W x 28.5"H.

When deployed, the Single Version measures 25"L x 53"W x 28.5"H, weighing 66 lbs.

The Double Version, when deployed, measures 25"L x 80.5"W x 28.5"H, weighing 77 lbs.
