# Rackmount Cases

The Skydyne Company specializes in the design and manufacture of custom rackmount cases. These rackmount cases protect sensitive electronics including servers, switches, routers, and house equipment such as audio/visual, industrial automation, broadcasting, and military.

Skydyne builds each rackmount case to the customer's requirements. Case construction options include fiber or carbon fiber reinforced plastic, laminates, or aluminum. Racks are manufactured using Iridite-coated aluminum, and can be mounted on isolators or fixed into the case. Additionally, removable racks are available upon request.

## Rackmount Case Constructions:

- Fiber Reinforced Plastic
- Carbon Fiber
- Laminate/Sandwich Composite
- Formed, Welded Aluminum
- Custom Hardware
- EMI/RFI Shielding Design Available

## Rack and Isolation Features:

- Custom Rack Sizes
- Iridite-coated Aluminum Racks
- Fixed Racks
- Removable Racks
- Elastomeric Isolators
- Steel Wire Rope Isolators
